Task 10 — Before and After: Site Icons, AI Summary File and Clearer Links

Prepared by	Prepared for	Website	Status
Prodman Nexus Solutions — Sathish Kumar M	Dr Divya S	https://drdivyaphoenixdental.com	For review — development copy of the site, not live yet

What this task did: added proper site icons (browser tab and phone home screen), a short clinic summary file for AI assistants (`llms.txt`), clear names for two links, the footer wording "View all treatments", and two code tidy-ups. The pages look the same apart from the footer wording.

1. Summary

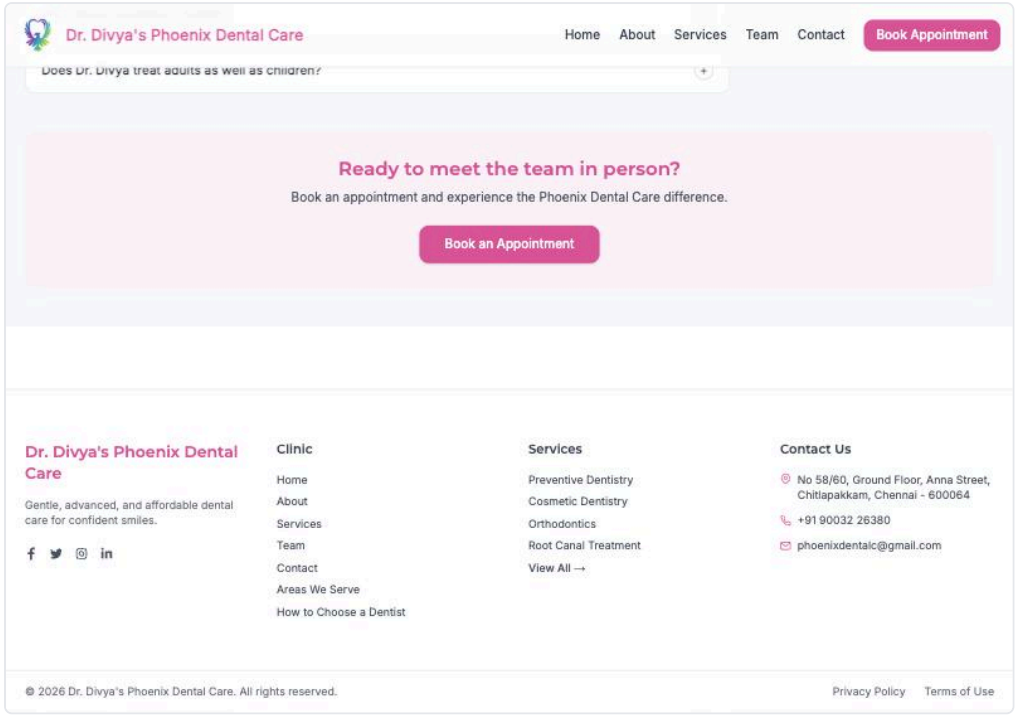

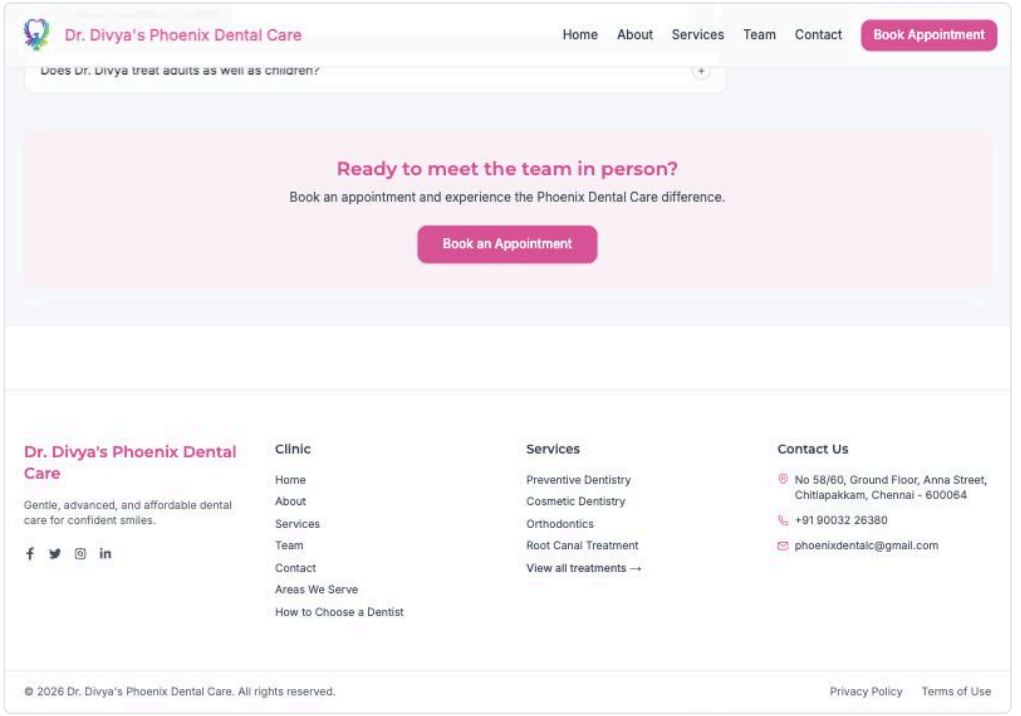

What	Before	After	Visible?
Browser tab icon	`favicon.jpeg` only; `/favicon.ico` not found	Standard `favicon.ico` plus a 512 px icon, from the logo made square with white padding	Same logo, crisp and square
Phone home-screen icon	Missing	180 px Apple icon and 512 px app icon	When the site is saved to a phone
Web manifest	Missing	Name *Dr. Divya's Phoenix Dental Care*, short name *Phoenix Dental*, white background, brand pink	No
Theme colour	Missing	Brand pink (colours the browser bar on some phones)	Some Android phones
AI summary file (`/llms.txt`)	Not found	Clinic details, doctor, 15 treatments and key pages (text below)	No (read by AI tools)
Instagram icon link	No name	*Dr. Divya's Phoenix Dental Care on Instagram* (for Google and screen readers)	No
Map on Home	No name	*Open the clinic location in Google Maps*	No
Footer link under Services	View All →	**View all treatments** →	Yes
Offers list	Missing list keys (developer warning)	Keys added; offers unchanged and still on hold	No
README	Described a different repo and missing folders	Correct repo, commands and folder list	No (developer file)

Checked: all new files load; the page header lists the icons, manifest and theme colour; titles, descriptions and headings unchanged on all 22 pages; no links without a name; no browser errors; build passes.

2. The new icons

Browser tab (32 px)	Phone home screen (180 px)	App icon (512 px, shown smaller)
		

3. Footer: before and after

Before	After
	

Under *Services*: *View All* → became **View all treatments** →. Nothing else in the footer changed.

4. The AI summary file: drdivyaphoenixdental.com/llms.txt

No prices, offers, testimonials or experience years (still waiting for Divya's wording).

```
