Task 3 — Wording for Approval: Headings, Opening Lines and Photo Descriptions

Prepared by	Prepared for	Website	Status
Prodman Nexus Solutions — Sathish Kumar M	Dr Divya S	https://drdivyaphoenixdental.com	Draft for approval — nothing changes on the website until approved

> **Revised after review (24 Oct 2026):** to avoid repeating the location, it is now added **once per page** — the small heading line on Home and the opening line on other pages. The proposed main headings in Section 1 (except Home and Team → *Meet Dr. Divya S*), the Home "Dental Treatments in Chitlapakkam" / "Visit Our Clinic in Chitlapakkam" headings, the Contact "Our Clinic in Chitlapakkam" heading, the Home opening-line location, and the treatment headings *Benefits of…*, *…: Step by Step*, *… — Frequently Asked Questions*, *Book … in Chitlapakkam* were **not used**. See *Task 3 — Before and After (version 2)*.

How to use this document

Step	What to do
1	Read each proposed line. The **Your decision** column is for *OK* or your change.
2	Rows marked **Divya to confirm** describe Dr Divya's titles — please check the exact wording.
3	Once approved, we update the website exactly as written. The page layout and design stay the same.

Why these changes: today none of the 20 pages has the location in its main heading, and only 1 page uses its main keyword in the text. Google reads the main heading and the first lines to decide what a page is about. Each page gets **one** main keyword, used naturally — no repetition, and no words such as "best", "painless" or "guaranteed" (dental advertising rules).

1. Main heading of each page (H1)

#	Page	Today	Proposed	Main keyword	Your decision
1	Home	Rejuvenating Smiles...	**Option A (recommended):** a small heading line above the tagline — "Dental Clinic in Chitlapakkam, Chennai" — and "Rejuvenating Smiles..." stays exactly as it looks today. **Option B:** "Gentle Dental Care in Chitlapakkam" replaces the tagline.	dentist / dental clinic in Chitlapakkam

4. Photo descriptions (for Google and screen readers)

Six photos on the Home page have no description today. Each description says what is in the photo. Because these look like general stock photos, they do **not** say the photo was taken at the clinic.

#	Photo	Proposed description	Your decision
1	Main photo — dental light treatment	Dentist using a dental curing light while the patient wears protective glasses	
2	Smiling woman with a mirror	Smiling woman checking her teeth in a hand mirror after cosmetic dental care	
3	Braces close-up	Dentist adjusting metal braces with orthodontic pliers	
4	Smile with guide lines	Smile design guide lines drawn over a woman's smile	
5	Tooth treatment	Dentist treating a patient's tooth with a dental handpiece	
6	Dentist illustration (beside Dr Divya's profile)	Illustration of a dentist holding dental instruments	

> **Question for you:** the treatment pages already have photo descriptions such as *"Dentist performing root canal treatment at Phoenix Dental Care, Chitlapakkam"*. If these are stock photos rather than photos taken at the clinic, we recommend removing *"at Phoenix Dental Care"* so the descriptions stay accurate. Shall we?

5. Behind-the-scenes fixes (no visible wording change)

Fix	Why
The "0 Years of Experience / 0 Smiling Clients" counters stop being main headings	Today Home and About each have 3 main headings; Google expects one
Dr Divya's qualification line on Home becomes normal text (today a small heading)	Heading levels should not skip
Home section headings become level 2, treatment names level 3	Clear page outline for Google
Footer headings change from level 4 to level 2	No skipped levels on any page

Task 3 Wording for Approval — Dr Divya's Phoenix Dental Care

Fix	Why
Treatment names on the Services page become level 2	No skipped levels
Dr Divya's name under "Meet Your Doctor" becomes level 3	Correct outline on treatment pages
Testimonial names stop being headings (testimonials stay on hold)	Names are not page sections

The look of the pages does not change — only the hidden heading levels.
