SEO & AEO Growth Plan — Dr Divya's Phoenix Dental Care

Prepared by	Prepared for	Website	Document
Prodman Nexus Solutions — Sathish Kumar M	Dr Divya S	https://drdivyaphoenixdental.com	Keywords, meta titles & descriptions, AI-search plan, listings and social media — October 2026

1. The Plan in One Page

Goal (Divya's words): *shine in the locality, get more reach and more marketing.* We do that by being the clinic people find first when they search in Chitlapakkam and the nearby areas of Tambaram — on Google, Google Maps, and AI assistants such as ChatGPT, Gemini, Perplexity and Claude.

What this document gives you	Where	How it helps
388 keywords — brand, doctor, "best doctor" searches, 15 treatments, 13 nearby localities, how patients really search, symptoms, Tamil/Tanglish	Section 4	Every page gets a main keyword and supporting keywords, so Google knows what each page is for.
76 questions for AI assistants (50 already on the site, 26 new)	Section 5	AI assistants quote pages that answer questions directly. This is how the clinic gets named in AI answers.
Meta titles & descriptions for all 20 pages, within safe length	Section 6	More people click your result in Google.
AI-search (AEO) playbook and a monthly test list	Section 7	Track whether ChatGPT, Gemini, Perplexity and Claude mention the clinic.
25 places to list the clinic — maps, directories, social and community	Section 8	More places where patients can find the same, correct clinic details.
Facebook, Instagram, LinkedIn & YouTube — bios, words to use and avoid, hashtags, weekly rhythm, sample posts	Section 9	Regular, dignified posts that build local recognition.
Rules for dental advertising in India — what we will and won't publish	Section 2	Protects Dr Divya's registration while we grow the clinic's reach.
90-day plan and measures	Section 10	Clear steps, owners and what we track each month.

How to read the priority labels: P1 = start now (high chance of bringing patients) · **P2** = next · **P3** = later or supporting. Search *intent*: **Local** = looking for a clinic nearby · **Transactional** = ready to book or compare cost · **Informational** = learning · **Navigational** = looking for you by name.

2. Rules for Dental Advertising — Read First

Dentists in India are bound by the *Revised Dentists (Code of Ethics) Regulations, 2014* (Chapter VI, Clauses 8.1–8.3 cover advertising, patient solicitation, publicity and signage). On **14 October 2026** the Ethics and Dental Registration Board of the National Dental Commission issued an advisory to all registered dentists, as reported by Medical Dialogues. Breaches may lead to a show-cause notice, suspension or removal from the dentist register. Everything below is built to stay on the safe side.

Topic	What the advisory cautions against	What we do in this plan	Decision for Divya
Patient testimonials & before/after photos	Publishing them	None in meta text, posts or ads. Use educational graphics, the doctor's introduction and clinic hygiene photos instead.	**Important:** the website currently shows 3 testimonials on Home and every treatment page. Please confirm whether to keep them (see note below).
"Best", "No.1", "top" about the clinic	Self-aggrandising publicity and misleading claims	"Best dentist in Chitlapakkam" is what *patients type*, so we target it with helpful pages (e.g. *How to choose a dentist*), but never call the clinic best. Titles and posts use "gentle", "family", "child-friendly".	Approve wording.
Recording / broadcasting consultations and procedures	Cautioned against	No procedure videos or reels. Use animations, diagrams and talking-head tips.	—
Offers and discounts ("free consultation", "Upto 700 off", referral rewards)	Not named in the advisory, but covered by the solicitation clauses	Offers are kept out of titles, descriptions and social posts until confirmed.	Check the offers on the Home page with the Tamil Nadu Dental Council / IDA.
Health claims ("100% painless", "permanent cure", "guaranteed")	Misleading treatment claims	Use "gentle", "comfortable", "designed to minimise discomfort". No guarantees, no results promises.	Approve wording.
Large signboards	Disproportionate signboards	Not part of the digital plan.	Keep clinic signage modest.

> **What this changes in the audit report.** Three suggestions in the health report should be **put on hold until Divya confirms**: showing more real patient reviews on the website (A5), the before/after gallery (U10), and the "real reviews" row in the action plan. We will also review the existing testimonials on the site.
>
> **Confidence note.** The advisory is reported by one news outlet; we could not read the original text of Clauses 8.1–8.3. Please ask the Tamil Nadu Dental Council or your IDA branch to confirm what is permitted before any paid advertising or social-media launch.

3. How These Keywords Were Chosen — and What Is Not Yet Verified

Source	What it gave us	Limit
The website's own content: 15 treatments, 50 FAQ questions, doctor profile, address, timings	Every keyword is tied to a service the clinic actually offers. Adjacent searches the site does not support are parked in a separate table (Section 4.9).	We only target what Dr Divya offers.
Live Google results for "dentist in Chitlapakkam Chennai" (checked October 2026)	Who and what ranks today: directories Lybrate, Clinicspots, DocIndia and Apollo 24|7, and clinics such as Clove Dental, Dr. Shalma Banu (also on Anna Street), Pandian's Multispeciality Clinic and Cute Smiles Family Dental Clinic.	Directory data can be outdated.
How patients phrase searches in India: "near me", "open now", "cost", "painless", symptoms, Tamil and Tanglish	The behaviour-based lists in Sections 4.4–4.8.	Modelled from search patterns, not measured.

Source	What it gave us	Limit
Search volumes and the last 12 months of real searches	**Not verified — we do not yet have access to Google Search Console, Google Keyword Planner data or Google Trends exports for this site.**	We will re-rank every keyword with real data after Search Console access (planned next month).

Competitor snapshot (from directory listings; verify before relying on it):

Clinic / directory	What the listing shows	Opportunity for Phoenix Dental Care
Clove Dental (Chitlapakkam branch)	Chain; listed hours 10 AM–7 PM and closed Mondays	Target "dentist open on Monday" and later evening hours (Phoenix: Mon–Sat 9–8).
Dr. Shalma Banu A M (BDS)	Listed at Anna Street, Chitlapakkam	Same street — name consistency and strong Google Business Profile matter.
Pandian's Multispeciality Clinic	Listed 9 AM–9 PM	Compete on child-friendly and MDS-qualified care.
Cute Smiles Family Dental Clinic	Listed evening availability 5–10 PM	Evening demand exists; consider showing late-evening slots if Divya offers them.
Lybrate, Clinicspots, DocIndia, Apollo 24|7	Directories that currently rank for the local search	List the clinic on these so patients who land there find Phoenix too (Section 8).

4. Keyword Library — 388 Keywords

13	What happens during a professional dental cleaning?	Preventive Dentistry	Scaling and polishing; plaque and tartar removal; fluoride where advised
14	What are dental sealants and who needs them?	Preventive Dentistry	Protective coating, commonly for children's back teeth (site mentions sealants)
15	What is the difference between teeth whitening and veneers?	Cosmetic Dentistry	Whitening changes shade; veneers change shape/shade; both on site
16	How long do dental veneers last?	Cosmetic Dentistry	Divya to confirm; avoid guarantees
17	Do I need a filling or a crown?	Restorative Dentistry	Depends on how much tooth is damaged; dentist decides after examination

#	Question	Page	Facts to use / who supplies
18	How long do dental fillings last?	Restorative Dentistry	Divya to confirm; avoid guarantees
19	Braces or aligners — which is better for me?	Orthodontics	Both offered; depends on case; examination needed
20	What is the right age to start orthodontic treatment?	Orthodontics	Site says braces suit all ages; Divya to confirm child guidance
21	Dentures, bridge or implant — what is the difference?	Tooth Replacement	All three are on site; explain pros/cons plainly
22	How soon should a missing tooth be replaced?	Tooth Replacement	Site notes implants prevent bone loss; keep wording general
23	How do I choose a good dentist in Chitlapakkam?	Home (blog)	Helpful, neutral checklist (qualification, hygiene, explanation, follow-up) — targets 'best dentist' searches without self-praise
24	What should I do for a severe toothache at night?	Root Canal (blog)	General first-aid advice and 'see a dentist' message; no medicine dosages
25	How can I help my child feel comfortable at the dentist?	Pediatric (blog)	Builds on 'child anxious' FAQ; tips for parents
26	Why do my gums bleed when I brush?	Gum Care (blog)	Early gum disease signs; when to see a dentist

Answer format that works: first sentence = the direct answer (40–60 words), then 2–3 supporting points, then "Book a visit". Mark up with FAQ structured data and show a "last reviewed" date and Dr Divya's name.

7. AI-Search (AEO) and Local Ranking Playbook

No platform publishes how it chooses businesses, so the evidence below is from industry reports and Google's own guidance. We will test and record results monthly rather than assume.

#	Action	Why	Helps	Priority
1	Complete and verify Google Business Profile (categories, services, hours, photos, Q&A, weekly posts)	Google says its AI features are built on its core search systems; local data from the profile is widely reported to feed AI answers and Maps	Google, Maps, Gemini, AI Overviews	P1
2	Claim Bing Places (import from Google) and set up Bing Webmaster Tools with IndexNow	ChatGPT search is reported to use Bing-based data; Copilot uses Bing	ChatGPT, Copilot, Bing	P1

#	Action	Why	Helps	Priority
3	Claim Apple Business Connect	Apple Maps, Siri and iPhone search	Apple devices	P1
4	Use exactly one clinic name, address, phone and hours everywhere	Conflicting details make assistants omit or distrust a business (vendor-reported)	All	P1
5	Put direct, short answers at the top of each treatment page, with FAQ structured data	Easy for assistants to quote	All AI assistants	P1
6	Add Dr Divya's credentials, registration number (if she agrees), photo and 'last reviewed' date to treatment pages	Shows who is responsible for the advice — important for health topics	Google, all assistants	P1
7	Add `Dentist`, `Physician`, FAQ, breadcrumb and `sameAs` links in structured data	Helps machines connect the website, the profile and the doctor	Google, all assistants	P2
8	Keep AI and search crawlers allowed (Googlebot, Bingbot, OAI-SearchBot, GPTBot, ClaudeBot, PerplexityBot)	Blocked pages cannot be quoted. Already allowed today	All	P1
9	Get listed on the directories that already rank locally (Lybrate, Clinicspots, DocIndia, Justdial, Practo)	Aggregator listings are frequently cited by assistants (vendor-reported)	Perplexity, ChatGPT	P1
10	Publish helpful local content: 'How to choose a dentist in Chitlapakkam', 'Dental care for children', Areas We Serve	Targets 'best dentist' searches without self-praise; gives assistants local context	Google, all assistants	P2
11	Add `llms.txt` (clinic summary and key links)	Low cost; evidence that assistants use it is limited, so treat it as optional	Some assistants	P3
12	Run the monthly AI test list (Section 5.3) and record results	The only reliable way to know whether it is working	All	P1

8. Where to List the Clinic — Platforms, Directories and Local Channels

Use the same details on every listing. Divya to confirm the name; we recommend the spelling already used in the website footer:

9. Social Media — Words, Bios, Hashtags and Weekly Rhythm

9.1 Voice

Do	Don't
Calm, caring, educational, local, family-friendly	Boasting, comparisons with other clinics, fear-based messages
Plain English (add Tamil greetings on festival days)	Medical jargon with no explanation
"Gentle", "comfortable", "explained step by step", "for children and adults"	"Best", "No.1", "top", "guaranteed", "100% painless", "permanent cure", "cheapest"
Ask people to **call, WhatsApp or book**	Offers, discounts, testimonials, patient photos, before/after, recorded procedures

9.2 Words that work

Purpose	Use these	Avoid
Trust	Qualified, BDS MDS, experienced care, explained clearly, hygienic, step by step, neighbourhood clinic	Best, top, number one, leading, famous
Comfort	Gentle, comfortable, calm, relaxed, child-friendly, designed to minimise discomfort	Painless guaranteed, pain-free for everyone, no pain at all
Family	For children and adults, whole family, first dental visit, little smiles, healthy smiles	Cheap, discount, free, offer, lowest price
Local	Chitlapakkam, Tambaram, Selaiyur, Sembakkam, Rajakilpakkam, south Chennai, near you	Misleading distances or claims of being the only clinic
Action	Book, call, WhatsApp us, ask us, visit, check-up, consult	Hurry, last chance, limited slots
Education	Tips, myths, how it works, what to expect, aftercare, signs to watch for	Medical advice for a specific person in comments

10. 90-Day Plan and What We Track

When	What	Owner	Result
This month (SEO)	Approve the keyword map; update meta titles and descriptions; fix the website addresses (audit T1–T3); set up the Areas We Serve page	Prodman Nexus (Sathish)	Pages tell Google clearly what they are about
This month	Claim and complete Google Business Profile, Bing Places, Apple Business Connect; standardise name, address, phone	Prodman Nexus with Divya's approval	Consistent details across maps
This month	Create Justdial, Lybrate, Practo, Clinicspots, DocIndia, Sulekha profiles	Prodman Nexus	Presence on the directories that already rank locally
This month	Divya approves compliance decisions (Section 2) — testimonials, offers, wording	Dr Divya	Safe to publish
Next month (Search Console starts)	Verify Search Console and GA4; submit the corrected sitemap; capture the baseline	Prodman Nexus	A real baseline of searches and clicks
Next month	Re-rank all keywords using real Search Console data; add the new FAQs; start social posting rhythm	Prodman Nexus + Dr Divya	Data-led keyword priorities
Month 3	Publish 2–4 helpful pages (How to choose a dentist, children's dental care, Areas We Serve); first monthly AI test	Prodman Nexus + Dr Divya	More pages that can be found and quoted
Every month	Report: rankings for the top 20 keywords, Search Console clicks/impressions, Google profile calls and directions, AI test results	Prodman Nexus	Clear progress report

What we measure (baseline set once access is given — **Not verified today**):

Measure	Where	Direction we want
Impressions and clicks for Chitlapakkam and nearby searches	Google Search Console	Up each month
Average position for the 20 priority keywords (P1)	Search Console / rank tracker	Moving towards page 1
Calls, direction requests and website clicks from Google Business Profile	Google Business Profile	Up each month
WhatsApp and form enquiries	WhatsApp Business / contact form	Up each month
Mentions in AI answers (Section 5.3)	Manual monthly test	Clinic named, details correct
